RE: Maystar General Contractors – Reference Letter

Maystar contractors took on the very ambitious project of building several additional negative pressure resus rooms in our urban ED during the heat of a pandemic. They understood the urgency and critical nature of the work. The team was professional and kept the clinical teams informed.

I am pleased to report that we were able to operationalize the newly constructed rooms within very close proximity to the planned timelines despite several challenges.

I appreciate their professionalism and willingness to do what it took to get the job done given the critical nature of the work. I am pleased to recommend them based on my experience.

Should you have any questions regarding this reference, please do not hesitate to contact me.

Sincerely,

Kyle Vojdani, MD CCFP (EM)
Chief, Department of Emergency Medicine
